Committee Candidates

ALAN RITCHIE

Since the CBS pub committee began, I've worked with the original board helping turn the idea of a community-owned pub into reality, developing a business plan, supporting the purchase, ongoing operations, HR and training, and developing policies and systems to ensure the Swan runs smoothly and is built for long-term success.

My background includes senior leadership roles at FTSE 100 companies, including Group COO. I've overseen operations and strategic change, including managing £multi-million investments.

I'm a non-exec for the Charity Mind, support the Royal Marines Charity and SRRA as a committee member.

Living in West Peckham for over 40 years with my family, I care deeply about the pub's future and the role it plays. There's still plenty of work to do and I'd welcome the opportunity to continue contributing to the operations role, working to build on the significant progress we've made so far.
