The Swan Community Project Limited

(The Society)

Committee Candidates

WARREN GILBERT

I have been part of the Swan Community Project Board since the beginning leading the Communications & Marketing Team. During that time, I built the Swan Community Project website, launched and managed the social media presence posting to more than 120 groups during the share offer campaign, reaching an audience of over 3 million followers. I also led print campaigns, advertising, posters & signage across West Peckham and wider community.

Phillipa and I moved to West Peckham 19 years ago and have been actively involved in village life ever since. In 2022 I became Chair of West Peckham Fête, giving it a new look and community spirit.

I rose from apprentice to Managing Director of a print and design company which I sold in 2014 and launched The Natural Space Company, I continue to enjoy the day-to-day challenges of running my own business.

I am dedicated and passionate about the village and the Swan on the Green, which remains at the heart of it all.
